

MRPL's AKAM Health and wellness Camp at Tumkur

MRPL's Impactful Initiative: AKAM Health and Wellness camp Benefits around 10,000 Students at Tumkur as part of Azadi Ka Amrut Mahotsav celebrations.

As part of the ongoing Azadi Ka Amrut Mahotsav celebrations, MRPL, a Miniratna Central Public Sector Enterprise (CPSE), is making significant impact by organizing medical screening camps at various locations. One such camp is taking place at Tumkur, where 10,000 students received essential medical screenings.

In a collaborative effort, MRPL partnered with Siddaganga Medical College and Research Centre to execute a camp at Tumkur. MRPL sponsored all the expenses for medicines required during the camp, while Siddaganga Medical College extended its support by providing experienced doctors and necessary facilities.

Prior to the Tumkur camp, MRPL has successfully organized similar AKAM Health and Wellness camps at Mysore and Kateel, benefiting many people including students. As part of our ongoing commitment to this noble cause, MRPL plans to hold next camps at Hubli and Charmadi.

In the next 30 days, a total of 10,000 students are expected to undergo Health screening and receive treatment according to their medical requirement. This thoughtful initiative aims to ensure Health and Well-being of young students while also celebrating the spirit of independence during the Azadi Ka Amrut Mahotsav.
