

MRPL's AKAM Health and wellness Camp at Hubli

As an integral part of the ongoing Azadi Ka Amrit Mahotsav celebrations, Mangalore Refinery and Petrochemicals Ltd (MRPL), a distinguished Miniratna Central Public Sector Enterprise (CPSE), is leaving a remarkable imprint by orchestrating Health and Wellness camps at diverse locations. Among these endeavours, a particularly noteworthy camp was recently held at Hubli, where the healthcare needs of around 400 people were met.

In a collaborative step, MRPL forged a strategic alliance with the District Ayush department and Jnana Jyoti Pratistaana to seamlessly execute the camp at Hubli. The commencement of the program was graced by Shri Krishna Hegde, GGM HR, MRPL, along with other dignitaries including District Health Officer, Shri Rudolph V J Noronha, GM CC, and Dr. Manjunatha H V, GM Admin.

During the course of this event, individuals were provided with free medical consultations, diagnostic assessments, and requisite medications. A diverse range of ailments such as hypertension, diabetes, respiratory conditions, dermatological issues, paediatric illnesses, and women-specific disorders were addressed with proficiency. Experts from the Ayush department extended their knowledge through consultations and distributed informative literature pertaining to wholesome lifestyles and household hygiene. The culmination of the event was met with unanimous acclaim, as it benefitted over 400 marginalized individuals from the vicinity.

Before the Hubli camp, MRPL had conducted equally impactful AKAM Health and Wellness camps in Mysore, Kateel, and Tumkur, greatly benefiting the general populace as well as students. Sustaining our unwavering commitment to this noble initiative, MRPL is poised to conduct forthcoming camp among the remotely accessible locations near the Charmadi Ghat on 14.8.2023.
